

Industrial PC from ICP with **INTEGRATED WAXAR SAFETY SOLUTION**

+ Bit-based DevicelImage® Technology

While backup solutions in the standard IT environment are mainly file-based, DevicelImage® pursues a bit-based strategy.

+ Independent of operating systems

No dependence on the operating system used, its updates and its locked system areas.

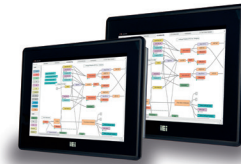

+ Fully automatic application

Self-running restoration of delivery status or customer-specific configurations.

+ Various license types

Different license types, such as OneTime, Simple, etc., tailored to your application purpose.

Available IPC models with integrated waxar safety solution

HMI Panel PC

Applications	Monitoring Surveillance
Chipset	Intel® Coffee Lake / Baytrail
RAM	max 64GB
Screen size	6" ~24"

Scalable Embedded PC

Applications	Machinery and plant engineering
Chipset	Intel® Skylake / Haswell
RAM	max 64GB
Size	Medium with PCI/PCIe

Compact Embedded PC

Applications	Edge computing Intelligent machines
Chipset	Intel® Skylake / Baytrail
RAM	max 32GB
Size	Compact

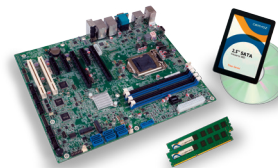

DIN-Rail PC

Applications	Remote monitoring Building automation
Chipset	Intel® Apollo Lake / Baytrail
RAM	max 8GB
Size	Compact

Ultra Compact Embedded PC

Applications	Intelligent gateway in confined space
Chipset	Intel® Apollo Lake / Braswell
RAM	max 8GB
Size	Ultra compact

Preinstalled Board Sets

Applications	For System Integrators Easy setup & Ready-to-Use
Chipset	Intel® Baytrail ~ Coffee Lake
RAM	max 128GB
Size	ATX ~ Pico ITX
